Summary

Aditya Panwar, a driven individual with a strong desire to improve and make the most of his abilities. He is a small-town kid who is determined to push his limits and bring out the best in himself.

He understands that in order to achieve success, one must be open to change and continuously strive to improve. This mindset is exemplified by the words of his mentor, Darren Hardy, who said, "When you want things to change, you have to change; when you want skills to improve, you have to improve." Aditya has taken these words to heart and they have become a guiding principle in his life.

Current focus is on the field of computer programming, specifically on Machine Learning (ML) Technologies and Website Development. He is currently honing his skills in website development, to build practical applications and bring innovative products to the public.

He believes that by combining the power of ML technologies with website development, he can create products that are not only efficient but also user-friendly. His ultimate goal is to become an Aspiring and Inspiring Star.

He is determined to make a difference and leave a mark in the field of technology and make the public benefit from it.

Experience

Intern

Cabin4j

Aug 2023 - Present (2 months)

Campus Ambassador

UDGHOSH, IIT KANPUR

Aug 2022 - Present (1 year 2 months)

Excited to make a positive contribution and expand my knowledge through participation in Udghosh-22, under the guidance of esteemed mentors: #MEENA_KULSHRESTHA and #PRIYANSHU_BHUSHAN

Started as Memeber

Community MYCIN

Apr 2022 - May 2022 (2 months)

I am excited to dive deeper into Artificial Intelligence and Machine Learning by working with a team of individuals who inspire me. I believe that this journey will not only lead to new discoveries and insights but also help me grow as a person.

However, I understand that a great team is essential for creating a great product. Therefore, I temporarily paused my efforts and began to focus on self-improvement.

Chief Executive Officer

Aditya Collection

Jun 2018 - Aug 2020 (2 years 3 months)

My first E-commerce venture, Aditya Collection, offered a unique personal shopping experience by providing a personalised buying guide for each customer based on their style, body shape, face shape, height, and budget. I had to close the business due to my Class 12th exams and studies, but I received high grades as a result.

I am switching to another domain; So might take long, or i don't do that.

</-- I am now considering re-launching the business after completing some pending work such as additional academics and market research following the COVID-19 pandemic. -->

Social Media Manager
